POLICY NO. 9

CULVERT INSTALLATION and/or REPLACEMENT

- Written request for a private culvert installation is the responsibility of the land owner
- MTS line location required where applicable
- Size to conform to existing site drainage requirements
- Install 3" below grade level with a 1" down grade slope for every 10 feet of culvert
- Old culvert to be removed from site as soon as possible.
- Length of culvert to be determined by the following formula:

(slope X height of fill); Doubled; plus 24 feet or 8 m sub-grade width

Adopted April 8th, 2003 Res. 131/03

Amended October 10th, 2008 PW meeting – Adopted November 4th, 2008 Res. 458/08

Example:

$4' \times 3' = 12' \times 2 = 24' + 24' = 48'$ of culvert required for crossing

Note: License required from Water Stewardship
Policy in effect Nov. 4/08
